Hampshire Outcomes Evaluation Summary 2012-2013

KS1 Pupils

During 2012-2013 questionnaires were completed by 96 KS1 pupils from 4 schools in Hampshire. 49% were boys and 51% were girls.

88.5% rated the visit as good and 91% said they would like Life Education Wessex to visit them again.

As a result of their session in the mobile classroom:

- 75% said they learnt more about what their body needs to stay healthy.
- 87.2% said they learnt more about what is inside their body.
- 69.4% said they learnt more about what to do when they are angry or lonely.
- 78.8% said they learnt more about what makes a good friend.
- 76.7% said they learnt more about when they need to take medicine and when not.

KS2 Pupils

During 2012-2013 questionnaires were completed by 254 Year 5 & Year 6 pupils from 3 schools in Hampshire. 54% were boys and 46% were girls. 50.2% were Year 5 pupils and 49.8% were Year 6 pupils.

92.5% rated the visit as either very good (50.4%) or good (42.1%) and 75.9% said they would like Life Education Wessex to visit them again.

As a result of their session in the mobile classroom:

- 91.6% agreed or strongly agreed that they knew more about what their body needs to stay alive.
- 84.4% agreed or strongly agreed that they understood better how their body works.
- 95.2% agreed or strongly agreed that they understood better how medicines, smoking, alcohol (and other drugs) affect their body.
- 90% agreed or strongly agreed that they knew more about how to keep themselves healthy.
- 90.8% agreed or strongly agreed that they knew more about how to be safe when taking medicines.
- 91.3% agreed or strongly agreed that the visit helped them to understand how others can influence the choices they make about smoking, alcohol (and other drugs).
- 82.9% agreed or strongly agreed that the visit helped them to see that not as many young people smoke, drink alcohol (or take other drugs) as they thought.
- 83% agreed or strongly agreed that the visit helped them to learn to be assertive with other people.
- 87% agreed or strongly agreed that the visit helped them to recognise how their emotions and needs change in different situations.
- 89.5% agreed or strongly agreed that the visit helped them to think about the risks of smoking, drinking alcohol (or taking other drugs).
